# BUILT-IN OVENS

## PROFESSIONAL & MASTERPIECE® SERIES

An array of industry-leading features and exclusives make Thermador® Built-In Ovens the only wall oven for true culinary enthusiasts. It starts with our revolutionary Steam & Convection Oven which provides the taste, texture and quality to match your passion for cooking. Thermador wall ovens feature a massive 4.7 cubic foot capacity, the fastest preheat in the luxury segment, an industry exclusive SoftClose® door, and a record-setting two-hour cleaning mode. The brand that invented the wall oven has reimaged its possibilities.

## The New Cooking Revolution RUNS ON STEAM

No true cook's kitchen is complete without the power of steam. And no steam oven is complete without the power of convection. You'll find both in the Thermador® Steam & Convection Oven.

### CONVECTION BEYOND CONVENTION

The Steam & Convection Oven features a Thermador True Convection baffle system that directs heat to cook foods faster and more evenly than other convection systems.

### BRING ON THE BIRD

Forget about getting up early on holidays. You can cook a 14-pound turkey in just 90 minutes in the oven Combination Mode. Golden on the outside. Moist on the inside.

### A GOURMET'S GOURMET TOOL

If you ask a professional chef about steam, you'll quickly understand its power, especially when combined with convection. Food is crisp on the outside and moist on the inside, just like it was being served at a 5-star restaurant.

### SAVOR THE RESULTS

The Steam & Convection Oven trumps all the other ovens when it comes to texture, appearance, and, of course, taste. Multiple dishes can be cooked to perfection at the same time with no flavor transfer or temperature adjustment needed.

### ENHANCED FLAVORS

Food tastes better and loses fewer vitamins and minerals when cooked with steam. Plus, steam helps eliminate the need to use unhealthy fats and oils.

### BETTER-THE-NEXT-DAY REHEATING

When properly reheated, some leftovers taste better than when they were originally served. Steam lets you reheat without losing any moisture, texture or flavor.

### 40 EASYCOOK® PROGRAMS

From gently steamed cauliflower florets to a succulent leg of lamb, the Steam & Convection Oven's 40 pre-programmed modes automatically set oven temperature and humidity for perfect results.

### DESIGN CHOICES

Choose either a Masterpiece® or a Professional product to match your wall oven or Professional range.

Engineered to handle your dishes before, during and after a dinner party, Thermador Dishwashers are equipped with performance, capacity, speed and flexibility—not to mention sheer beauty, with an option for flush, custom panels and a choice between two sleek handle options.

## *Star Sapphire® the Star of the Kitchen*

# MOVES AT LIGHT SPEED

### ★ ENTERTAINER'S DRAWER (NEW)

Exclusive to Thermador, the Entertainer's Drawer provides two inches of clearance for hard-to-place items that are usually hand-washed, or that take up valuable space on the top rack. Easily load a variety of tools in your arsenal—from mini spatulas to large knives.

### ★ STAR GLOW (NEW)

Illuminate the inside of the dishwasher to set the mood that matches the occasion. Star Glow allows you to customize lighting and choose from three vivid shades of sapphire blue or three radiant shades of white.

### ★ STAR SPEED®

The fastest in the industry at an unprecedented 20 minutes, the Star Speed hot water cycle ensures you'll always be ready for another round.\*

### ★ LARGEST WINE GLASS CAPACITY

No need to clean your glassware in two cycles; wash them all at once so you can get back to your guests. The Star Sapphire Dishwasher offers the largest wine glass capacity available in the industry, can hold up to 24 wine glasses on the top and bottom rack, and also features a wine glass caddy to provide the ultimate peace of mind for your most precious glassware.\*\*

### ★ ULTRA SMOOTH GLIDE RACKS (NEW)

Load and unload dishes with ease. Gentle Smooth Glide Racks minimize friction, noise, and feel smooth so you can discreetly fill the dishwasher while entertaining.

### ★ TIME REMAINING POWERBEAM®

Always know exactly how much time is left in a cycle with the unique Time Remaining PowerBeam—a vibrant readout projected onto the floor below the dishwasher.

### ★ PREMIUM CONTROL PANEL

Easy on the eyes and smooth to the touch, the premium touch-screen control panel is a sleek addition to the Star Sapphire Dishwasher. Intuitive controls allow you to quickly find the setting you need—and never miss a beat while entertaining.

## Dishwasher FEATURE HIGHLIGHTS

### EMERALD® MODELS FEATURE:

#### BLUE POWERBEAM® STATUS INDICATOR

The PowerBeam operating indicator lets you know when the unit is running with our signature blue light.

#### FINE SILVERWARE CARAFE

The aluminum construction of our Fine Silverware Carafe accessory (sold separately) protects valuable sterling silver flatware from damaging oxidation so it can be safely washed in the dishwasher.

### TOPAZ® MODELS ADD THESE FEATURES:

#### CHEF'S TOOL DRAWER®

A cook's work is never done, but an upgraded tool drawer makes cleanup much easier. With a design that accommodates oversized and wide-handled tools, loading and unloading become seamless and cleaning more thorough.

#### EXTRA-TALL-ITEM SPRINKLER

Sprinkler delivers powerful spray stream to ensure large items can be cleaned—without removing the Chef's Tool Drawer. Cleans items up to 22 inches tall, such as platters and baking sheets, eliminating the need to hand wash.

#### CRYSTAL PROTECT® SYSTEM

Utilizes a built-in water softener to neutralize water hardness for perfectly clear crystal, free of water spots.

### SAPPHIRE® MODELS ADD THESE FEATURES:

#### ★ SAPPHIRE GLOW®

Bring the results of a perfect wash to light with sparkling blue light that illuminates when the dishwasher is opened, giving just-cleaned stemware and dishes a luxurious glow.

#### ADJUSTABLE CHEF'S TOOL DRAWER®

Providing serious loading capacity for small and large utensils, this flexible 3rd Rack delivers not only added loading capacity, but adjustability to accommodate larger or smaller items, wider ends, and utensil handles.

#### FLEXIBLE FOLDING TINES

Another feature that makes Thermador® Dishwashers the most versatile on the market. Flexible Folding Tines fold down to accommodate larger pots, pans, and dishes providing the capacity to hold items twice as wide as previous models, and significantly wider than competitors.

The kit includes two identical and reversible metal side trims whose placement between the interior cutout wall and the appliance helps overcome the challenge of unfinished cabinet returns.

### FREEDOM® HEATER KITS

HEATRKIT20 – 13W @ 120V

When two appliances are installed side-by-side a sealing kit must be used. For combinations that involve a freezer column, this kit is included. For all other (non-traditional, i.e. two wine columns, two bottom freezers, etc.) side-by-side combinations or instances where any appliances are installed less than 6-inches (152 mm) apart from one another but not connected side-by-side, purchase this kit. This kit is recommended for use with any installation in areas that are subject to humidity, or located next to an outside wall.
